

K67 TIËSTO

SUPRA-AURAL CLOSED-BACK
DJ HEADPHONES

AKG[®]
by HARMAN

HIGH-PERFORMANCE ON THE GO

K67 TIËSTO's on-ear design is ideal for home recording, project studios, live sound and rehearsal applications, offering high noise attenuation. The compact design delivers sound quality wherever necessary, even outdoors. XRP³ glass-fiber reinforced polymer parts ensure maximum durability and low weight.

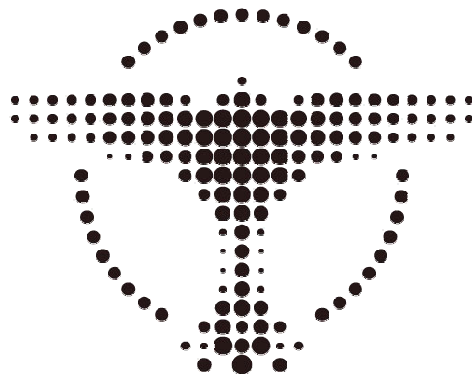

The 3D-Axis professional folding mechanism allows to fold down into a thin package for transportation. The low weight and the leatherette ear pads provide comfort for many hours. Due to its 40 mm transducer and great sound at high sound pressure levels, the K67 TIËSTO enables for small clubs to large venues.

HIGHLIGHTS

- » On-ear (supra-aural), closed-back design for highest possible noise attenuation
- » 3D-Axis professional folding mechanism - extremely flat when collapsed
- » XRP³ glass-fiber reinforced polymer parts ensure maximum durability and low weight
- » 40 mm driver for high sound pressure
- » Compact size, ideal for portable use

KEY SPECIFICATIONS

Capsule	dynamic
Design	Closed-back / on-ear (supra-aural)
Color	black / silver
Cable	1.8m (5.9 ft) straight cable
Frequency range	16Hz-24kHz
Sensitivity	115 dBspl/V
Impedance	32 ohms
Max. input power	500 mW
Main connection	gold plated 3.5mm jack
Adapter	gold-plated 6.3mm adapter (screw-on)
Folding mechanism	3D-axis
Driver Size	40 mm (1.6 in.)
Weight	210 g (7.4 oz)
Item number	K67 3283H00010
